

STREAMLINE YOUR **WORKFLOW**[™]

Get Organised with a tool control system designed to boost efficiency and save time.

Get Organised[™]

**DEVELOPED
TO MAKE YOUR
JOB EASIER**

TAILOR YOUR TOOL SOLUTION TO YOUR NEEDS

TengTools offer a modular tool system that is built to last.

Build your ultimate tool kit with our large selection of storage and tool sets enabling customised tool solutions for any kind of industry or profession.

Don't waste space and money on tools you don't need. Buy the exact tools you require and if you need more in the future, just add new sets that fit seamlessly into your storage solution.

When you purchase TengTools you are guaranteed the highest quality. If a tool is worn out or if you happen to lose a piece, individual tools can be easily purchased as replacements.

GET ORGANISED FOR A **BETTER WORKFLOW**

Keep your high runners within arm's length and the others close by. This creates the perfect workflow and maximises efficiency. Your fully organised toolbox is always kept tidy and no time is wasted searching for tools.

Get started with our Tool Control System.

Our Tool Control System offers the widest selection in the market. With storage solutions in all sizes from large stationary cabinets to small portable service cases and more than 240 tool sets to choose from it's easy to create a bespoke tool kit that suits your exact needs. The TengTools Tool Control System is modular and the standard tool sets fit in all the different storage solutions enabling you to move tool sets from a roller cabinet over to a portable service case if you need to bring them with you for a specific job 'on the go'.

To get started, just choose your storage, choose your tool sets and click them together. It's easy to Get Organised!

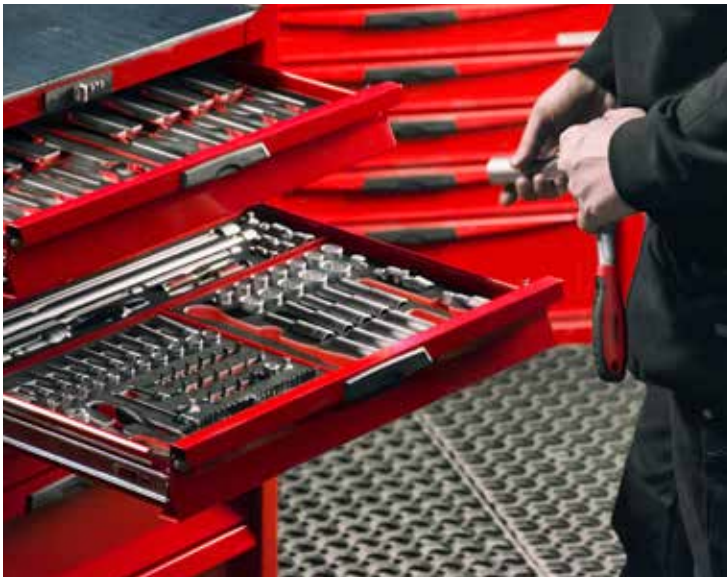

Get Organised™

THE RIGHT TOOLS IN THE RIGHT PLACE

Looking for misplaced tools, or not having the right tools within reach is the kind of distractions that slow you up and makes work less efficient. TengTools is making it easier to have your high runners within reach and the odd ones close enough. And above all it's a piece of cake to keep all your tools clean and in perfect order.

Being organised is crucial when building a submarine.

Kockums are building the world's most sophisticated AIP Submarine. To deliver on time and budget, they needed to organise thousands of tools required for every aspect of the build. TengTools tool control system turned out to be a perfect match.

Every engineer has their own personal set up of high runners in a portable tool case, each workstation team has a fully equipped roller cabinet for daily use, and in the shipyard's tool room they have over 4000 hand tools easily accessible when required.

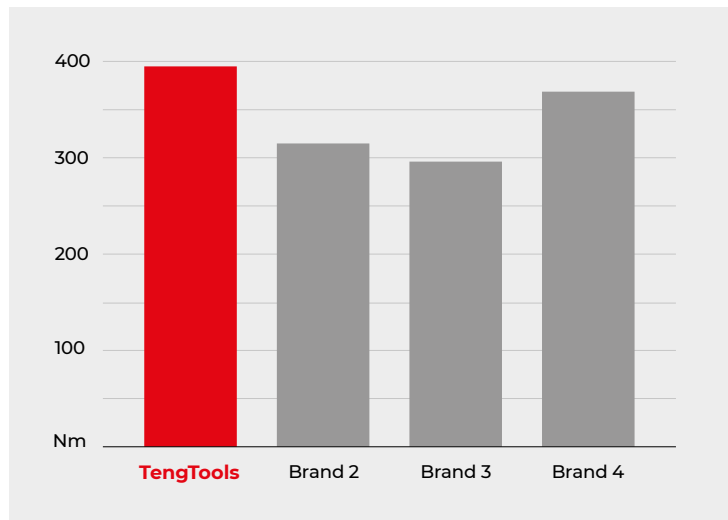

“Being organised has not only saved us time and money. It has also increased safety in the workplace.”

Kockums, a business area within the Swedish Defense and Security Group, Saab AB.

QUALITY IS EVERYTHING

Strong materials and experienced tool makers guarantee a consistent premium quality. The lifetime warranty offered with our tools means you can rest assured they will not let you down.

Adjustable wrench Comparison test. May 14, 2020. Torque breaking point (Nm).
ISO 6787:2018.

Proven to be better than most.

Independent tests have shown that our tools not only exceed the international quality standards – they are best in class. TengTools was positioned first or second in all of the eight product categories tested.

Great tools isn't just about economy, it's also about trust.

DESIGNED FOR DEMANDING PROFESSIONALS

Our tools are used by companies that do not compromise on quality. Our extensive range offers an opportunity for professionals to find an optimal assortment with regard to quality, range and price.

The Swedish aerospace company Saab AB uses TengTools on the Saab JAS 39 Gripen.

INNOVATIONS TO STAY AHEAD

TengTools originates from a long Swedish tradition of world leading technology and user-centric design. From the wrench to spherical ball bearings, we are constantly developing and improving our tools for both new and old problems. Our latest addition is an advanced tool cabinet with RFID tool control that monitors and keeps track of every tool in the kit, perfect for industries where a lost tool can be fatal
